Our professional Geriatric Care Managers have the experience and training to help our elderly clients maintain their personal and financial independence.

We are the eyes and ears of the family, doing all of the things family members would do for their aging parents if they were able.

The Complete Elder Solutions team of Geriatric Care Managers assess, plan, coordinate, monitor and provide services to meet the special needs of older adults and individuals with disabilities.

We are community resource specialists who coordinate health, financial, real estate and social services for the elderly and their families.

When necessary we help clients with our team of professionals in Financial Planning, Elder Law, Insurance, Medicine, Psychology, Home Health and Real Estate. Advocacy for older adults is a primary function of the Geriatric Care Manager.

Mission

Complete Elder Solutions is passionate about advocating on behalf of older adults and individuals with disabilities.

Our Team

Our team of dedicated professionals includes Geriatric Care Managers, Nurses, Social Workers, Psychologists, Attorneys, Accountants, Financial Advisors, Real Estate Brokers and Property Managers.

Elder Care Assessment

We start with a comprehensive assessment to find out about the needs and desires of the elderly client and their family members.

We can focus on one or two concerns or assess all life management areas including medical, financial, legal, psychological, social and housing.

Once the assessment is complete a plan of action is developed to address problems and manage tasks in any of the life management areas.

Our Geriatric Care Managers can report to family members and other responsible parties as outlined in the Care Management Plan.
